

PIT & RUN

F-1 RACE

PIT & RUN™

F-1 RACE

© TAITO CORP. 1984

How to play

- * Control the player's red car with the 4-way joystick and the accelerator button.
- * When the red car passes any of yellow cars their color changes from yellow to blue. When the gasoline meter turns red, the "pit-in" sign appears. Hurry into the pit and refuel your car. If the fuel indicator reaches "0" refueling is not possible.
- * Drive carefully and avoid the slippery zone, flaming cars, thunderbolts, and other obstacles.
- * After the player's car clears the third trial, the courses change. There are four new courses.
(First trial - five laps, Second trial - eight laps, Third trial - ten laps)
- * The player's car can become turbo-charged in the second and third trials. After getting ahead of all the other cars, the player's car goes into the pit and changes into a turbo to increase the speed. In addition, each time the player's car moves ahead of any of the other cars, the fuel indicator rises.
- * Game ends when the fuel indicator shows "0" or the player's car falls one lap behind the others.
- * Be careful when driving in the dark.

GET AHEAD OF THE OTHER CARS AND TUNE UP THAT TURBO-CHARGED ENGINE! IT IS A FAST ACTION AND FUN GAME!
